Fact Sheet - Designated ISIS Branches and Individuals

U.S. Department of State
February 27, 2018

The Department of State has designated 40 ISIS leaders and operatives under Executive Order (E.O.) 13224, and will continue to target the group to deny it access to the U.S. financial system. These designations are part of a larger comprehensive plan to defeat ISIS that, in coordination with the 75-member Global Coalition to Defeat ISIS, has made significant progress toward that goal. This whole-of-government effort is destroying ISIS in its safe havens, denying its ability to recruit foreign terrorist fighters, stifling its financial resources, negating the false propaganda it disseminates over the internet and social media, and helping to stabilize liberated areas in Iraq and Syria so the displaced can return to their homes and begin to rebuild their lives.
